

RFHD Questionnaire: Model

Biopsychology and Sensation and Perception

Part II.

Imagine that you were being assigned a partner in a community volunteer event that will take several hours. For each of the following cases, indicate where you would be most likely to fall on the indicated dimensions.

a. If that other person was in a wheelchair:

Sadness for the Other or Sympathy	1	2	3	4	5	6	7	8	9	10	Hope for Other or Inspiration
Difficulty Relating Sense of Foreignness	1	2	3	4	5	6	7	8	9	10	Empathy Sense of Connection
Ignorance of Possible Condition	1	2	3	4	5	6	7	8	9	10	Knowledge of Possible Condition
Awkwardness or Fear of Offending	1	2	3	4	5	6	7	8	9	10	Comfort or Approach

b. If that other person was deaf:

Sadness for the Other or Sympathy	1	2	3	4	5	6	7	8	9	10	Hope for Other or Inspiration
Difficulty Relating Sense of Foreignness	1	2	3	4	5	6	7	8	9	10	Empathy Sense of Connection
Ignorance of Possible Condition	1	2	3	4	5	6	7	8	9	10	Knowledge of Possible Condition
Awkwardness or Fear of Offending	1	2	3	4	5	6	7	8	9	10	Comfort or Approach

c. If that other person was blind:

Sadness for the Other or Sympathy	1	2	3	4	5	6	7	8	9	10	Hope for Other or Inspiration
Difficulty Relating Sense of Foreignness	1	2	3	4	5	6	7	8	9	10	Empathy Sense of Connection
Ignorance of Possible Condition	1	2	3	4	5	6	7	8	9	10	Knowledge of Possible Condition
Awkwardness or Fear of Offending	1	2	3	4	5	6	7	8	9	10	Comfort or Approach

d. If that other person was a recent immigrant from a foreign country:

Sadness for the Other or Sympathy	1	2	3	4	5	6	7	8	9	10	Hope for Other or Inspiration
Difficulty Relating Sense of Foreignness	1	2	3	4	5	6	7	8	9	10	Empathy Sense of Connection
Ignorance of Possible Condition	1	2	3	4	5	6	7	8	9	10	Knowledge of Possible Condition
Awkwardness or Fear of Offending	1	2	3	4	5	6	7	8	9	10	Comfort or Approach
